Hello

I'm Silviu Petrea

Romania, Galati
(+40) 743 927 416
silviupetrea60@gmail.com

Skills

Versatile developer with strong Python skills for automation, AI integrations, and Flask backend development. Experienced in frontend development using React and TypeScript. Quick learner, collaborative, and skilled at sharing knowledge and adapting to new technologies.

Experience

🟢 Freelance – Fiverr Platform (May 2021 – Present)

Using Python, I built automated systems for various clients, some solving day-to-day tasks and others automating business processes.

🟢 Frontend Developer – Primcast (February 2025 - July 2025)

I handled frontend development for our applications using React and TypeScript, fixed bugs, added new features, and collaborated closely with the backend developer to successfully implement those features.

🟢 Technical Support Operator – Primcast (February 2024 - February 2025)

Technical Support Operator – ensured proper functioning of client servers and services, communicated with clients via phone, chat, and email, and developed professional communication skills.

Awards

Participation in the County Algorithmic Olympics - 2020
3rd place at the Innovation and Digital Creation Olympics "InfoEducatie" - 2022
